This is the fifth Office Action for application serial number 10/600,300, Partition Mount with Extended-Length Head filed June 20, 2004. Pending are claims 1-16, 20-38, 43, 45, and 48-50.

Withdrawal of Allowability

Upon review of the art of record and upon discovery of additional art the previous allowance of claims have been withdrawn and the following action taken. Any inconvenience is regretted.

Claim Objections

Claims 1, 20, and 48 are objected to because of the following informalities: In claim 1, line 13, "a room" should read –the room-. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 43 and 45 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 1,177,724 to Rambo. The present invention reads on Rambo as follows: Rambo teaches a mount comprising a pole or mounting member (15), an elongated body (2), and a coupler (14). The elongated body has a longitudinal axis

(along the length of the pole). A curtain interface (9) is coupled to an upper surface of the body. The coupler (14) is for allowing the pole to rotatable coupling the pole to the body, wherein the position of the coupler is adjustable relative to the longitudinal axis of the body and is determined according to indexed positions (8) on the body.

Additionally, the coupler includes an interface adapted to receive a pole or mounting member.

Allowable Subject Matter

Claims 1-16, 20-38 and 48-50 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the above grounds of rejection.
